

Assumption

- A center must have at least one staff member: implied by spec
  - A staff member is employed by only one center : confirmed by client
  - A centre must have at least one facility: part of spec
  - A centre runs at least one class: (Each centre runs.....)
  - A facility may not have a class that is conducted in it: Plausible
  - A qualified staff member may run multiple cllasses: Plausible
  - A class may have no students enrolled in it yet  
eg: When the class is first launched
  - If a given class is offered for multiple iterations, it is still considered to be a new class: Confirmed by client
- 
- Since only the start date time for the first session is recorded, there is no need to consider it to be a multi-value attribute

note classes paid and  
members can sign up
